The Punishment Of My Pastors Who Celebrate Easter

"My people love evil- they will not give it up. That goes with the Easter holiday. What right do My people have to practice wicked idolatry and other sins in their homes with regard to the Easter holiday? Nowhere in My Word does it say to gather eggs in hunts? To color them and hide them in the lawn for the little children? Yet the practice goes on irrespective of My Word. The people love their traditions of evil. Where do My people love chicks and baby rabbits? It comes from the springtime celebration of Ishtar, a wicked holiday from the pagan times that My people still practice. In the churches My pastors love to compromise with evil, wicked idolatries that I will punish, and that with severity, because they know better than to do evil, but do it anyways with the people, compromising with evil. They love idolatry because they love the money it brings, and will not depart from their evil. Pastors of compromise shall by burned forever in My Lake of Fire, because they willingly work evil for the people because they love it. What right do My pastors have in practicing the wicked pagan holiday of Ishtar, christianized into the Easter holiday? It has nothing to do with it. I was crucified during the Jewish time of Passover. That My pastors do not celebrate, thinking they are not Jewish. So why do they then celebrate a pagan holiday? My anger is against My people. Repent wicked ones. Your LORD has spoken. Amen."
